

**ecospecifier**  
products:knowledge:solutions

*This is to confirm that the following products have been assessed and met the criteria for inclusion on **ecospecifier.org**. In addition, a Green Star™ Pre-Assessment has been conducted and found this product is likely to contribute to the achievement of Green Star™ credit points.*

**Company:** Armstrong World Industries- Ceiling Division  
**Products:** Fine Fissured and Dune Ceiling Panel Systems  
**Valid:** Valid to 11/07/08

### **ecospecifier's** role is:

- ❖ to provide a third party, independent and unbiased assessment of information provided by manufacturers and other sources;
- ❖ To assess products using known Australian and International Standards, independent test data, third party research and expert opinion;
- ❖ To determine if products are eco and health preferable based on the premise that:
  - they need to exhibit one or more eco or health preferable characteristic compared to other products in their category; or
  - be a member of a product category that is in itself an eco or health preferred category; and
  - should not contain 'significant' ecological or health damaging content.
